ARMIES FIGHTING IN HEAVY SNOWSTORM

Battle Is Progressing Favorably For the Japanese.

JAP ARMY NEARING MUKDEN

Russians Captured Are Attired in Chinese Clothes—General Nogi's Port Arthur Veterans Are Participating in the Battle—Losses Are Heavy.

General Kuroki's Headquarters, via Fusan, March 4.—The battle is progressing favorably for the Japanese although a snowstorm is swirling over the hilltops. The gunners get glimpses of their targets only when the clouds lift a few moments.

The Japanese made great gains by night advances against the Russian position on the extreme left and they occupy a part of the first line of the triple line of defenses in the hill beyond the Shakhe. The Russian trenches here run northeast on the crests of the low line of hills following the bend of the river. The main defense lines are higher in the hills beyond. The Japanese right forces are pushing forward under cover of the night. Ofurei and Taka mountain was surprised by them and the Japs met with but little opposition. At Ofurei the Japanese found trenches circling the hill. They fired from three sides and entrenched the Russians, capturing 60. These were partly dressed in Chinese clothes and looking as though they had been leading a hard life.

The Japanese forces directly west of Waitao mountain took advanced positions close to the river during the night. The Russians made feeble and ineffectual attacks on the villages near the river. A tremendous bombardment is being made westward today.

Great clouds of smoke are ascending near the Wanpaosan hills, where the Japanese fire is directed. The cannonading also about Waito mountain was suspended this morning. The Japanese right is shelling the Russian works on the higher hills and at noon the Japanese opposite Waito mountain resumed work co-operating with them. On Tuesday 60 Russian guns were working. Opposite Waito mountain there were 30. The casualties in the right army have been very few compared with the results gained. These regiments camping in the open ground or making night attacks muffled in heavy clothes are put to the hardest tests that soldiers could endure.

Sakhetun, Manchuria, March 4.—Stubborn fighting has been going on all day long. Four Japanese divisions are out 11 miles west of Mukden.

The Japanese today made two infantry attacks on Poutiloff hill, but were repulsed. They have resumed the bombardment of the hill. The Japanese atacked the Russian extreme left wing at two points as well as at Gauto pass, where, during the morning, the fortifications previously abandoned, were captured by the Russians. The bombardment of the Russian positions on the left and right flanks continued while the Japanese swept Poutiloff hill with at least 2,500 shells from Mortars and siege guns that the latter's projectiles being recognizable by their enormous explosive force and massive splinters.

Towards evening the Japanese advanced on the right wing, where stubborn fighting continues. Though the Japanese are pushing forward on the left bank of the Hun river, the Russians are maintaining stubborn defense.

The four Japanese divisions engaged in the turning movement on the Russian right on the Liao river today reached Sawaipu, about 11 miles west of Mukden, but Russian reinforcements were sent out and checked the advance. A Japanese attack on the positions east of Erdagou at 4 o'clock this morning was repulsed.

Under cover of the artillery fire and a mist the Japanese opened an infantry attack on Poutiloff hill at 7 a. m. but were beaten off by the desolating fire of the Russian guns. A second attack at noon were similarly repulsed after which the Japanese resumed the bombardment of the hill with siege guns preparatory to making a fresh assault.

General Nogi's Port Arthur veterans are participating in the present fighting. The losses on both sides are heavy, but the results are indecisive.

The report that a detachment of Japanese cavalry has appeared at Sinmintin is confirmed.

CHINESE COOK IS SUSPECTED.

As the One Who Placed Poison in Mrs. Stanford's Medicine.

San Francisco, March 4.—The Call published a dispatch from Honolulu which says that Miss Bertha Berner, who was Mrs. Stanford's secretary, has named Ah Wing, a Chinese cook, who has been employed at Mrs. Stanford's home for over 20 years, as the person whom she suspects of placing the strychnine in the bicarbonate of soda.

Ah Wing, with the other servants in the employ of Mrs. Stanford is now confined in the Stanford mansion on California street by private detectives under orders, it is said, of the personal attorney of Mrs. Stanford. They are not allowed to leave the house and a watchman is on guard at the gate day and night with orders to prohibit al persons from approaching the dwelling.

Besides Ah Wing there are two other Chinese servants and the housekeeper at present in th house.

GIGANTIC DRUG COMBINATION.

Existence of Which Cost the Consumers $40,000,000 Annually.

Chicago, March 4.—Existence of a gigantic combine controlling the drug trade of the United States and costing the consumers $40,000,000 annually is held to have been proven by the hearing just concluded before special United States Commissioner Marshal E. Sampselle.

The amount of business controlled by the combination is placed at $400,000,000 yearly. The evidence is said to be so conclusive that it probably will be placed in the hands of a United States attorney for investigation. Th fight against the combination is being made by a large retail druggist in Philadelphia, who is suing for $100,000 damages under the Sherman anti-trust law.

The chief witness has been Thomas V. Wooten, secretary of the national association of retail druggists.

Memphis Will Have Races.

New Orleans, March 4.—George C. Bennett, one of the largest stockholders in the New Memphis Jockey club, and who is also interested in the Crescent City Jockey club, has stated that the later will run day for day with the New Orleans Jockey club and one day longer. Brown, who is interested in the New Orleans Jockey club, of the plans that have been mapped out.

Mardi Gras Opens.

New Orleans, March 4.—The carnival parades opened Thursday night with the pageant by the Knights of Momus. The subpject was "Vathek," a Persian poem, describing the calip's wanderings through enchanted gardens to the halls of Eblis. There were 18 magnificent floats. The ball at the French opera house, in which Momus crowned his queen in an enchanted garden, was a beautiful spectacle, with the officers of the cruiser Brooklyn part of the brilliant throng. Spring weather has set in and the crowd is already of record size. Miss Florence Kells was queen.

Three Strikes Settled.

Wilkesbarre, Pa., March 4.—The troubles at several mines have been settled. The strikers at the Hollister & Boyman colliery went back to work, having adjusted their grievances; the Kingston Coal company men managed to settle the several grievances which they have had for some time, the company granting concessions, and the striking driver boys and others at the Coxe Bros. & Co. mines went back to work.

ROOSEVELT IS OUR PRESIDENT

The Inauguration is Most Elaborate in History.

A STUPENDOUS DISPLAY

The Inaugural Address Was Brief and Patriotic—Washington Filled With an Eager Crowd to See the Eventful Scene.

Washington, March 4.—Theodore Roosevelt was sworn in as President of the United States today, as the choice of the voters of the land.

The crowd was the largest in the history of such an event, and there was no serious hitch in the program.

The procession was the grandest pageant ever seen here, and as the President's carriage passed along he was loudly cheered.

The inaugural address was very short and filled wita patriotic utterances, and the sentiment seemed to catch the enthusiasm of all.

It was the busiest hour in President Roosevelt's life, and the vast crowd was well controlled by the 1,200 policemen on duty.

STRANGE STORY OF WILL.

Father Had Seen Children and Heirs for Over 35 Years.

Bosie, Idaho, March 4.—A strange story has come to light in connection with the filling of the will of the late John Wood.

He died in the hospital a short time ago. Before his death he made a will leaving his property, valued at $50,000 to his children. No one here knew he had children, although he has lived here 35 years. He had been divorced here, but there had been no children of the union. It now develops he left a family in Crawford county, Missouri, in 1860. They thought he went into the southern army and was killed. His right name was Bruce Wood.

The wife and three children are still living, but he had never communicated with them or heard of them, and when he came to make his will he did not know the number of children or their names. They have been hunted up since his death. The children are Peter S. Wood, of Cuba, Mo., John Wood, of Steeleville, Mo., and Mrs. Maggie Stemple, of Florida.

MAN OF 80 WEDS GIRL OF 14.

His Children, Granchildren and Great Grandchildren Greet Bride.

Laurel, Del., March 4.—Joseph Hill, an octogenarian farmer residing at Portsville, 4 miles from Laurel, eloped with Sallie, the 14-year-old daughter of Phillip Satchell, a Nanticowe fisherman.

Just after Christmas, Hill, who has been three times a widower, purchased his affianced a costly trousseau and arranged to be married, but neighbors watched them too closely.

They met recently, and, after a circuitous drive, found a minister who made them man and wife. Hill, who is a well-to-do farmer, took his bride home and his children, grandchildren and great-grandchildren greeted her in the most friendly manner.

The relatives of the bride also seem pleased, and, as Mr. Hill says, "it appears that it is only the neighbors and the young men who want my wife and the girls that wanted me that are causing so much talk and trouble."

Boy Saves Baby Brother's Life.

Providence, March 4.—Six-year-old Leslie McDonald, son of Keeper McDonald, of the Conimicut Light, and another son of the keeper, were playing on the rocks on which the iron lighthouse was built. Suddenly the fell into the icy water. Leslie immediately slid down into the water on a pole with which he had been pushing the cakes away, carrying with him the pole, his brother had been using. Leslie extended one of the poles to his little brother, who was barely able to grasp the end and both lads scrambled out on the rocks.

VIRGINIA FAIR GETS MONEY.

Congress Appropriates $250,000 for Jamestown Exposition.

Washington, March 4.—Government participation in the exposition to celebrate the first permanent settlement of English-speaking people on the western hemisphere, in the vicinity of Jamestown, Va., on the waters of Hampton Roads, was provided by the house when by a vote of 192 to 91, the bill for that purpose passed under a suspension of the rules. The amount appropriated is $250,000.

To put the bill through a two-thirds vote was necessary, and this was obtained only after a spirited debate. The members of the Virginia delegation during the roll call mingled among their colleague and personally appealed to them to cast their votes in support of the measure. An interested spectator was General Fitzhugh Lee, president of the exposition company.

The bill subsequently was passed by the senate and now goes to the president.

New Orleans Woman Found Dead.

New York, March 4.—A woman found dead last Saturday on the outskirts of Paterson, N. J., who has been partially identified two or three times under different names, has now been positively declared to be Lillian Austin, a native of New Orleans, who came to New York ten years ago. Her name is said to have been Mrs. Teresa Jones, and she leavs one brother and a sister still residing in New Orleans. Ten beggars who lived in a hut near the place where the woman was found have been detained by the police, but it is evident that knew nothing of the affair.

They came from all over the state, from Athens, Cordele, Macon, Rome, Columbus, Elberton, Gainesville, Americus and all other cities, and they mingled with the many Atlantans who wore the scimitar and crescent.

To Start Mine Soon.

Birmingham, Ala., March 4.—It is understood that the fire in the Sumter mines of the Tennessee Coal, Iron and Railroad company, which started two weeks ago, is under control and that as soon as the water, which was shot into the mines to put out the fire can be taken out, the mines will resume operations. This will require some time. Meanwhile the company has lost a daily output approximating 1,000 tons of coal and operation of furnaces has been greatly hampered.

NEWS FROM THE RUSSIAN CAPITAL

Looks Like There Will Be Another Big Strike.

DEMAND OF WORKMEN REFUSED

Their Representation on Arbitration Board is Cut Down and They Will Not Be Allowed Free Speech—Trouble at Warsaw.

St. Petersburg, March 4.—The workmen's demands that the government pledge itself to release the 6,000 workmen who have been arrestd since Jan. 22, insure that the members of the commission should have absolute freedom of speech and immunity of arrest on account of expression of opinions and that the proceedings of the commission should be published uncensored have been rejected by the government, as anticipated.

Those who assembled at the people's palace today in accordance with yesterday's agreement found the meeting place closed, the wall placarded with a notice signed by M. Schidlovski, president of the mixed commision, giving an evasive reply in regard to the liberty of speech during the sessions of the commission while all the other demands of the workmen were negatived on the ground that he was not competent to give the guarantees demanded as the questions were outside his sphere.

The neighborhood was full of police large numbers of whom were hidden in courts, doorways, alleys and buildings in the vicinity.

The workmen stood about in the snow discussing the situation quietly among themselves. They finally decided to hold sectional meetings this afternoon to decide on the measures to be adopted before proclaiming a general strike and then dispersed.

An imperial decree commands them in order that it may be possible for all our loyal subjects to be heard directly by the emperor, the council presided over by the emperor shall examine and consider in his name all the views and wishes that may be received from private persons and institutions in regard to perfecting the administration of the estate and the improvement of the welfare of the people.

Warsaw Police Making Arrests.

Warsaw, March 3.—11 a. m.—The police made numerous arrests in the course of the night, including Stanislaus Lubicseli, editor of the Kurojer Codzienny. He is not believed to be connected with the agitation movement, but it is thought his arrest was ordered for its moral effect, Lubiceski being one of the best known persons in Warsaw.

The military and police patrols have been largely increased, and are now stopping and searching persons in the streets for revolvers.

The emperor's manifesto was published here today. It is feared its reactionary tone will have a bad effect. Every one is nervously anticipating the developments of the next few days. It is rumored that martial law will be proclaimed here March 4.

Three regiments of infantry and some squadrons of Cossacks arrived today. The authorities apparently are concentrating troops in readiness for emergencies. Seven infantry regiments and a strong force of Cossacks are stationed at Lodz. The exodus of the people of wealth in Warsaw continues. The trains to Germany and Austria are crowded.

There have been further arrests of tor of the Flos Krzywicki and the editor of the Flos Krzywicki and the editor of The Ojniwo.

GRAND JURY MAKES ITS PRESENTMENT

Made Thorough Examination of County Offices.

COMPLAINT ABOUT WITNESSES

Cannot Find Them When Summoned, and for This Reason This Term is Delayed — Court Adjourned Until Monday Morning, 9 O'Clock.

The circuit court convened at 8:30 o'clock Saturday morning, His Honor Judge J. T. Wills presiding.

The jury in the case of the State of Florida vs. William. Cromwell returned a disagreement, three jurymen having held for acquittal and three for aggravated assault. The case, therefore, was declared a mistrial, after many hours of controversy and a great expense to the county. It will be remembered that the defendant was held for discharging a pistol at ex-Marshal J. H. Granger about a year ago.

The case of the State vs. S. Stevens, grand larceny, against whom the grand jury brought in an indictment Friday, was arraigned Saturday and pleaded not guilty. The prisoner was placed under a bond of $500, and the case was continued until the next term. Defendant being unable to give bond, was remanded to jail.

The grand jury came into court and made the following presentments:

The Presentment.

In the Circuit Court, Eighth Judicial District of Florida, in and for Alachua County—Spring Term, 1905.

To the Hon. J. T. Wills, Judge Presiding:

Having finished our labors for the present term of the court, we now make this, our general presentment. It would have been possible for us to have concluded our business at an earlier date but for the impossibility to secure the necessary witnesses. This would not have been the case if the justices of the peace had performed their duty according to law. In many cases we found nothing more than a simple affidavit—no reconizance for witnesses or means to find out who the witnesses were. We would mention, however, that the cost bills were invariably present. This we consider a disgrace to a county the size of ours.

We have examined the collector's office and find everything in proper order with the exception that the books of the former collector, containing valuable county statistics, are missing. These records, we hear, have been sold as the private property of the former officers. We also find a great many occupation taxes unpaid and we would suggest that the State solicitor file information in such cases. The ceiling in this office is in a dangerous condition.

Assessor's Office.

We find the books of the assessor in seeming good condition. We would recommend that this office be furnished with a suitable desk and table to enable him to properly care for the papers of the office.

Office of Clerk of the Court.

We find the books in this office in good condition. We note a great many bonds for carrying concealed weapons that are worthless. In the approval of such bonds we would urge upon the county court the exercise of more care. We recommend that the ceiling in this office be painted instead of kalsomined so as to prevent the fall of dust on books and papers.

Sheriff's Office.

We find the records properly and correctly kept in this office.

County Judge.

In this office we find a commendable system of keeping the records where any matters pertaining to the office can be quickly located.

Superintendent Public Instruction.

After a careful inspection of the books of this office and the manner in which they are kept, we feel safe in saying very little improvement could be made. We recommend that this office be furnished with a safe.

The committee appointed to investigate the accounts of William Holloway, former superintendent of public instruction, found, with the limited time they had, gross irregularities, which we have referred to the Governor for investigation. We find numerous warrants issued in December, 1904, were used improperly and without permission of the teachers.

We are sorry to note the increase of crime in the county, and that the most of it caused by blind tiger whiskey at negro festivals.

We return thanks to Your Honor, State attorney, and other officers of the court for courtesies extended us during our deliberations, and ask to be discharged. HENRY C. PARKER, Foreman Grand Jury.

W. S. MCDOWELL, Clerk.

The grand jury having completed its labors, that body adjourned for the term.

After hearing the cases mentioned above, the court adjourned until Monday morning at 9 o'clock.

WASTING AWAY

It's the small but constant loss of flesh that indicates physical waste—the gradual slipping away of healthy flesh, pound by pound, which no ordinary food seems to restore. Scott's Emulsion will restore it. This Emulsion is the greatest flesh builder obtainable. Scott's Emulsion first stops the wasting—that's one gain. Then when it supplies new flesh and takes one back to normal strength and weight, that's another gain and a big one.

THE NEWS FROM MELROSE.

Death of an Old and Highly Respected Citizen—Personal Notes.

Melrose, March 2.—Another one of the old pioneers of Melrose has been removed from among his many friends by the death of "Uncle Alex." Goodson, who died on Monday morning from old age and general debility. He was born in South Carolina October 23, 1825. He settled first in Alabama and after marriage came to Alachua county in 1858, preempting 120 acres, now part of the old homestead. Being a strong and energetic man and a good farmer, he soon cleared up enough land to start his well-known farm and orange grove. Later he bought more land until he finally owned all the lake front between Starke avenue and the Maxwell grove. After platting out the site of Melrose, he disposed of most of his holdings, keeping only his original home farm. He was a member of the Methodist Church for many years. During the war he served in the Ninth Regiment Florida Infantry. "Uncle Aleck" leaves a widow, by second marriage, one son, John A., and one daughter, Mrs. Melinda Johnson of Lake Butler, to all of whom the sympathy of their many friends is extended. The funeral took place on Tuesday morning at Eliam cemetery and was largely attended, Revs. Sistrunk and Mosely taking part in the service. The final ceremony at the grave was in the hands of the Masonic brethren, delegations from Waldo and other points being present.

D. J. Ellsworth deserves a vote of thanks from the citizens of Melrose for the numerous young oak trees planted in the streets by him.

The rainfall during the month of February was 3.24 inches.

During the past few days some fifteen or twenty bales of cotton were shipped from here, having been held for better prices.

Simon Conrad is making many improvements to his newly acquired store property.

Mrs. E. M. King and Mrs. von Noszky left today for a week's visit to Jacksonville.

At the recent meeting of the Ladies' Literary Society the members were presented with a silver-mounted gavel of rhododendron wood by Mr. von Noszky. The next meeting will be on March 10.

The Colonel's Waterloo.

Col. John M. Fuller of Honey Grove, Texas, nearly met his Waterloo from liver and kidney trouble. In a recent letter he says: "I was nearly dead of these complaints, and although I tried my family doctor he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold and guaranteed to cure dyspepsia, biliousness and kidney disease by all druggists, at 50c a bottle.

THE CHAUTAUQUA ENTERTAINMENT

The Musical Events Were Very Much in Evidence.

PROF. CHARLES LANE TALKS

Saturday Was a Day Enjoyed by Lovers of Choice Music—The Attendance Still Continues Good and the Interest Flattering—Sunday's Program.

The afternoon program at the Tabernorium drew a good attendance, when the day (Saturday) was taken into consideration, as many had to prepare for Sunday at their homes and were kept away.

The program at 2:15 o'clock was a little delayed, but the violin solos to be performed by Miss Cooke, who has won the good opinion of all music lovers, had aroused much interest and she was most heartily greeted. Her first fine selection was "Kammenoi Ostrow," by Rubenstien, the second was a "Serenade" by Drdla. For an encore she played the touching "Cradle Song," by Starke, which was full of soul-stiring music.

The lecture by Prof. Chas. Lane was a sort of random address, or "Talks and Talkers," as announced on the program. Many of his sarcastic remarks imply more than some people realize, and occasionally some interval of time would elapse before the full meaning would appear. He is a scholarly talker, and has won friends in Gainesville who will be glad to see him again.

Evening Program.

The program for the evening was a strictly musical treat. The first was the appearance of the favorite violin virtuoso, Miss Charlotte Cooke, who had two excellent numbers, the first being the "Swan Song" by Saint Seans, her second being an "Intermezo" by Mascagui. The cordiality shown Miss Cooke by the audience must have been very flattering to this accomplished violinist.

Following Miss Cooke came the Chicago Lyceum Ladies' Quartette, one of the most successful musical organizations that has ever been in this section of the country, having met with very flattering success both in the South and West, and been on their tour for eight months, one of the longest seasons of any ladies' organization in this country. The company comprises the popular lyric soprano, Madame Cones, first soprano; Elizabeth Pournell Stuart, second soprano and manager; Gertrude Goodwin Millér, first alto and dramatic reader, and Anna Houser, second alto and lady baritone.

The program was made up of some of the choicest music, consisting of quartets, solos, etc., and the harmony of the voices were even better than at their first appearance, having had a short rest from the fatigue of their journey in reaching this city. Madame Cones has a remarkable voice, reaching E above high C with apparent ease. Never before has a company met with more popular favor. Besides singing from the classic, they sang the inspiring "Dixie" and "Old Kentucky Home," with the most careful expression. It was a feast of music.

Today's Program.

A 5 p. m. Dr. C. B. Strouse will conduct vesper services. At 8 p. m. Dr. Blackstone will preach.

Miss Cooke, who has won such popular favor, has been secured by Dr. Strouse to play a sacred violin solo at both services.

For an Impaired Appetite.

Loss of appetite always results from faulty digestion. All that is needed is a few doses of Chamberlain's Stomach and Liver Tablets. They will invigorate the stomach, strengthen the digestion and give you an appetite like a wolf. These tablets also act as a gentle laxative. For sale by all druggists.

Cotton Burns in North State.

dred and fifty bales of cotton were Charlotte, N. C., March 4.—One hunburned here Thursday. A spark from a shifting engine set fire to the cotton, which was owned by the Lancaster Mercantile company and the Heath Banking and Mercantile company. The loss is covered by insurance.

Startling Mortality.

Statistics show startling mortality from appendicitis and peritonitis. To prevent and cure these awful diseases there is just one reliable remedy, Dr. King's New Life Pills. M. Flannery, 14 Custom House Place, Chicago, says: "They have no equal for constipation and biliousness." 25c at druggists.

It is calculated that the natural gas burned in the United States in one year would fill, at the average density and pressure, a pipe forty-nine feet in inside diameter, extending around the world at the equator. It would equal the contents of a reservoir a mile square and a mile and six-tenths in height. Its heating value is reckoned as about equivalent to 12,000,000 tons of good bituminous coal.

Among the matters that should be settled before next Fourth of July by some of the papers throughout the State are the following: Did the frost injure the turnip crop of Florida? Will it pay to drain the Everglades? Is the railway to Key West a feasible proposition? Was Judge Swayne guilty? Why not hold a fair at Jacksonville and Tampa, if they want them? These questions should be settled before the Legislature begins its sessions so the proceedings will not be crowded out.

EN PASSANTE.

Items of Interest Brought Out by The Sun's Rays.

"The lecture at the auditorium," said a gentleman who has been a regular patron of the Chautauqua, "are too long and too funny for me, and I reckon they appear the same way to others. Many of them contain wholesome advice and are well directed, but as for me, I could digest the good with a better relish if some of the antiquated jokes were left out. A good half hour of common sense talk, fired red hot at the young men and young women, would do more good than 180 minutes of the sublime and ridiculous hashed up together. Boil them down and then the young men can go home and think over them before bed-time."

"I don't think I would make a very good mail carrier," said a gentleman to a friend a few days ago. "Frequently I am handed one or two letters as I leave home and asked to drop them in the postoffice as I pass by on my way to my office, so they will get there before the postman calls. Of course it would seem almost rude to tell a person that Uncle Sam pays men to do the work and they would naturally be the most reliable carriers, so I take them with pleasure. But the other day a man asked me if I mailed the letter he gave me a week previous, as he had received no reply. I told him I thought I had, but on searching my pocket I found the letter there. I had other matters to occupy my thoughts and it never once entered my mind about being a mail carrier. Moral: If you want bread, don't go to the stone-yard."

"The idea that people patronize home talent entertainments, simply to encourage them, etc., is all nonsense," said a gentleman yesterday, who is quite a judge of amusements. "I went to the minstrel performance last night, and must confess I was happily surprised. It was all right. The first-part was as tasty as one would care to see, and much better than half the traveling shows. The singing was good, the jokes crisp and well told, and I notice that people who were present and not interested from local pride, enjoyed the performance. We have plenty of local talent here, and in the line of entertainments we can always get up something attractive. I am sure that all present got their money's worth at the minstrel show. Give us more."

"Have you got anything in the line of a booklet or paper that gives a brief sketch of Gainesville?" inquired a gentleman from the North of The Sun man a few days ago. "I came here to attend the Chautauqua and my wife and another lady who accompanied us are well pleased with the city of Gainesville. We like the town and the pure drinking water. But we would like to take a souvenir home with us." There not being anything at hand that filled the bill better than The Daily Sun, so we gave him a copy and he subscribed to have it continued to be sent to him at his home, as he wanted to keep posted regarding the improvements about the city.

"One thing Gainesville should be proud of," said a Northern visitor, "is the lady-like bearing of the young ladies and the gentlemanly appearance of the young men who are students of the East Florida Seminary. There are no finer appearing students that I can remember of having come to my notice, and I can assure you that I am quite observing along this line. And every stranger that I have talked with regarding the Seminary are of the same opinion I am."

Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The Kansas oil companies are working along lines that make it difficult for the Standard Oil Company to injure them to any degree. By having company concerns instead of individuals, they divide the stock in such small amounts that those of the business men who put their money in the oil company stock can spare it from their regular business, and if it should happen; from the future policy of the Standard, or any other difficulty, that this company would be forced to the wall, and its entire investment be forfeited, there would be an average loss to the stockholder of $216 each, and each could stand the loss and never really miss it, while if an individual had the entire investment, and should be forced to the wall, it would mean the loss to him of a great fortune, and also the loss to him of his credit.

ANOTHER MAN IN CHAMBERLAIN CASE

Deputy Sheriff Stokes Brought Geo. Anderson from Georgia.

DECLARES HE IS THE MAN

Says Fletcher Watson Was Crazy When He Confessed to Killing of Chamberlain, And Will Prove That He Was Two Miles Away from Scene.

George Anderson, a negro who was formerly in the employ of Osteen & Herrin, naval stores operators of Micanopy, has been brought to this city from Georgia, charged with the murder of Garrett V. Chamberlain. Notwithstanding that the grand jury in the case has brought in a charge of murder in the case of Mr. Chamberlain of another man, Fletcher Watson, this man Anderson, who was working at the time of the killing for Osteen & Herrin, and who remained in the employ of that firm for several days afterwards, is accused of being the actual murderer, and Mr. Stokes declares he has evidence to prove it.

Anderson was arrested a few days ago at the request of Deputy Sheriff Stokes, by the sheriff of Clinch county, Ga., and placed in prison at Homersville. In the meatime an indictment upon the same charge was returned by the grand jury against Watson, but the question now rests, "Who did the killing?"

It will be remembered that shortly after this tragedy, which the entire county regretted, Watson was arrested and brought to this city, having been committed for the murder. He made a statement in which he said that he was guilty, but that he had been told to kill Chamberlain by a certain white man, from whom he had borrowed a gun. This story did not look right, and the public did did believe the white man guilty. The negro afterwards admitted that he had lied, and completely exonerated the white man, stating that he had committed the crime himself. The grand jury at the present session found an indictment against the negro, Watson, relieving the white man altogether, but even with the indictment Officer Stokes declares Watson is crazy, and that he believes that the man brought from Georgia is the guilty party.

Watson is Crazy.

"This negro Watson is absolutely crazy," remarked Officer Stokes Saturday. "I cannot understand what he meant by stating that he killed Mr. Chamberlain, and that is what makes the affair all the more ridiculous. I cannot understand for the life of me why Watson ever said he shot Garrett Chamberlain, when reputable witnesses will testify positively that he was at least two miles from the scene when the killing was alleged to have taken place."

Mr. Stokes feels sure that he has in Anderson the man who is guilty of the murder of Mr. Chamberlain, but of course this must be proven. Anderson states positively that he is not guilty, and says he will prove his innocence at the proper time.

PARK'S DRAMATIC COMPANY.

Good Shows All the Week and Some Clever Acting.

The Park Dramatic Company is now playing a return engagement of one week in Live Oak to large and appreciative audiences.

Mr. Park has the best aggregation of dramatic talent ever seen under a canvas tent in Florida, and they present a repertoire of high-class dramas in a most acceptable and interesting manner. Their presentation of "Esmerelda," "The Fatal Wedding," "The Moth and the Flame," and one or two other plays of lighter vein, is far in excess of excellence to what might be reasonably expected of a tent show with a very limited quantity of stage settings, scenery, etc.

So far as the acting of the players is concerned, it is first-class. There are many successful stock theatrical companies in the large cities of the North that are greatly inferior to this one, and they deserve all the patronage and encouragement they can get.

Between the acts of each play the management presents interesting and amusing moving pictures, and specially features in the shape of farcical skits, wing and clog dancing, etc. They will appear at Gainesville one week, commencing Monday, March 13th.

MOZLEY'S LEMON ELIXIR.

LAND OFFICE BUSINESS.

Business for February was Larger Than Same Month Preceding Year.

The United States land office for the month of February enjoyed the finest business of any month of the same period in preceding years, and as a natural result, Register Robinson, Receiver Chubb and the office force are happy.

Chief Clerk Lynch stated Saturday that he had been busy making out the reports for the past few days, being compelled to work over time. The demand for government lands has been good, and in almost every instance those making application have entered homesteads and will become citizens of Florida. A great many applicants have come from outside the State, but the homesteads have been reserved, and the settlers will grow up with the country as useful and progressive citizens.

The following report of the land office for the month of February is given for the benefit of those interested:

101 homestead entries, 11,312 06 acres; 36 final homesteads, 3,605 58 acres; 51 excess cash entries, 280 24 acres; 10 M. B. land warrants, 1,237.20 acres.

Gives Health, Vigor and Tone.

Herbine is a boon for sufferers from anaemia. By its use the blood is quickly regenerated and the color becomes normal. The drooping strength is revived. The languor is diminished. Health, vigor and tone predominate. New life and happy activity results. Mrs. Belle H. Shirel, Middlesborough, Ill., writes: "I have been troubled with liver complaint and poor blood, and have found nothing to benefit me like Herbine. I hope never to be without it. I have wished that I had known of it in my husband's lifetime." 50 cents. Sold by W. M. Johnson.

Reading.

Reading is not a lost art to the same degree that conversation is, but it has in most cases an arrested development through so much reading that makes no demand upon aesthetic sensibility, so that one is apt to bring to a fine story full of delicate shades of thought and feeling the same mind which he yields to a newspaper, putting a blunt interrogation as to its meaning as conveyed in the terms of a rational proposition, and the writer's charm is wholly lost upon him.—Harper's.

Invaluable for Rheumatism.

I have been suffering for the past few years with a severe attack of rheumatism and found that Ballard's Snow Liniment was the only thing that gave me satisfaction and tended to alleviate my pains. March 24th, 1902, John C. Degnan, Kinsman, Ill. 25c, 50c and $1. Sold by W. M. Johnson.

Hornets as Fly Killers.

Hornets, or "white faced wasps," have no evil traits or obnoxious features. It is true that they will sometimes sting, but this is only when they are attacked in their own homes or think their young are in danger. The great value of these insects is that they live entirely upon insects, mostly flies, and, in fact, when they are near dwellings their food is generally the common housefly. They are nature's greatest factors in reducing this serious pest. It is well known that flies carry disease germs, such as those of typhoid fever, and it can thus be seen that hornets have a decidedly sanitary effect as a result of their desirable insectivorous habits.—Field and Stream.

Turkish Towns Held by Insurgents.

Constantinople, March 4.—The towns of Aab and Yerim, southward of Sanaa, the capital of the provinces of Yemen, Arabia, have fallen into the hands of the insurgents. Ali Gara pasha with five battalions of Turkish reinforcements, left Antaba Feb. 28 for Hodeida.

Champion Liniment for Rheumatism.

Chas. Drake, a mail carrier at Chapinville, Conn., says: "Chamberlain's Pain Balm is the champion of all liniments. The past year I was troubled a great deal with rheumatism in my shoulder. After trying several cures the storekeeper here recommended this remedy and it completely cured me." There is no use of anyone suffering from that painful ailment when this liniment can be obtained for a small sum. One application gives prompt relief and its continued use for a short time will produce a permanent cure. For sale by all druggists.

A Second Offense.

The tramp arrested for vagrancy rarely displays any humor, but a New York paper mentions one whose mild waggishness enlivened his own trial.

After the judge had looked the man over he said musingly, "I seem to know your face."

"Yes," the tramp agreed pleasantly; "we were boys together."

"Nonsense!" said the judge, frowning.

"But we were," the tramp said, with mild insistence. "We're about the same age. We must 'a' been boys together."

If the Baby is Cutting Teeth

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

On and Off.

Knobbs—They say poverty egged him on to the stage. Snobbs—Yes, and the gallery egged him off.—Princeton Tiger.

TO CURE ANY DISEASE.

The Cause Must be Removed, Same Way With Dandruff.

Kill the germ that causes dandruff, falling hair and baldness, you will have no more dandruff, and your hair must grow luxuriantly. Newbro's Herpicide not only contains the dandruff germ destroyer, but it is also a most delightful hair dressing for regular toilet use. No other hair preparation is on this scientific basis of destoying the dandruff germs. It stops all irritation, keeps the scalp sweet, pure and wholesome. ITCHING ECZEMA

In July, 1883, I began to break out with Eczema on my head, legs and arms, and began treatment with local doctors, but did not get much relief. They said the disease had become chronic. I then quit them and tried various ointments and soaps for another two years, but as soon as cold weather came I was as bad off as ever, so I finally decided to let medicine alone, and for twelve or thirteen years did nothing towards curing the Eczema, except bathing. This seemed to do about as much good as anything I had tried.

During the time I lost about one-half of my hair. I began S. S. S. doubtful of a cure, because the disease had run so long, but soon discovered your medicine was doing me good, and continued to take it. I used seven bottles, when I was completely cured, not having a single spot on my body, which before was almost completely covered. F. C. NORFOLK.
1017 Hackberry St., Ottumwa, Ia.

The head, feet and hands are usually the parts affected, though the disease appears on other parts of the body. While external applications allay the itching and burning temporarily, it is the acids thrown off by the blood that cause the irritation and eruptions upon the skin. The acids must be neutralized and the system cleansed of all humors and poisons before the cure is permanent. S. S. S. is guaranteed entirely free of Potash, Arsenic and other minerals. Book on the skin and its diseases sent free. Medical advice furnished free.

IMPORTANT TARIFF DECISION.

United States Circuit Court Hands Down Ruling on Sheet Iron.

New York, March 4.—A decision of interest to the iron sheet manufacturers has been returned by the United States circuit court of appeals. The decision affected the finding of the lower court, and also the ruling of the board of general appraisers in declaring that metals assessed as wrought iron under section 183 of the tariff act were properly dutiable as metals not otherwise provided for.

The clause is of the act of 1897.

The question grew out of a protest against the assessment by the collector of 28 cents ad valorem on a quantity of merchandise invoiced of Ferro-Chemea, Ferro-Tungstun, Ferro-Molibdcum and Ferro-Vanalius—minerals used in the crucibles to harden armor plate and projectiles which were classified as metal unwrought. The importers claimed the ferros should come in under another section at $4 a ton along with pig iron and scraps.

Cured Consumption.

Mrs. B. W. Evans, Charwater, Kan., writes: "My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago and since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c and $1. Sold by W. M. Johnson.

Fees Fixed by Judge Speer.

Macon, Ga., March 4.—Judge Speer fixed the attorney's fees in the Red Cypress Lumber company case at noon Thursday after hearing the argument on the exceptions taken to Special Master John R. L. Smith's report. These fees amount in the aggregate to $27,500, about 4 per cent of the amount involved, and are distributed as follows: For each of the receivers, $5,000; for the counsel for the bankrupt, $3,500; for the counsellors who defeated the mortgage of $108,000 the sum of $3,000; for the counsel for the general creditors, $10,000; for the committee appointed by the creditors, $600, and for the special master, $500.

Boy Hold-Up Kills Woman.

Chicago, March 4.—James A. Logan, a negro schoolboy, wanted a pair of shoes, so he stole a revolver and started out on a hold-up expedition. While dodging in the shadows of the Chicago university at 1 o'clock this morning, he saw a woman approaching, dangling a purse in her hand. Pointing the weapon at her head, Logan said: "Give me that purse." The woman was in the act of passing him the purse when the amateur robber in his excitement pressed the trigger and shot her dead. The woman, Mrs. Delia Tracy, was a domestic employed in the neighborhood.

A Chicago Alderman Owes His Election to Chamberlain's Cough Remedy.

"I can heartily and conscientiously recommend Chamberlain's Cough Remedy for affections of the throat and lungs," says Hon. John Shenick, 220 So. Peoria St., Chicago. READ THIS.

Lexington, Tenn., June 5, 1901.

This is to certify that about March last I suffered intensely with my back and kidneys. Just prior to this I had undergone treatment for bladder trouble and was relieved, except the treatment was followed by the above trouble. It was recommended that I try "Texas Wonder, Hall's Great Discovery." I took one dose on retiring at night, and to my agreeable astonishment, I found myself relieved. One dose did the work. There is no bosh about this. It is wonderful.

Respectfully,
C. R. Scott,
Proprietor Scott House, formerly county chief clerk, postmaster, etc.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. HAD OYSTER SUPPER.

Modern Workmen of the World Ate Oysters and Initiated Candidates.

The Micanopy lodge of the Modern Workmen of the World are progressive fellows, and believe in keeping up with the times. On Thursday evening of the past week the lodge gave an oyster supper to its members, and it is needless to add that there were a great many present, as all the Micanopy folks are partial to oysters.

There were three candidates at this meeting, and they were initiated in the mysteries of the order, after which there was a general good time.

Compliment to Smith.

Attention is directed to the change of advertisement of James F. Smith, the photographer, which appears elsewhere in this issue. Mr. Smith announces that he has many new and handsome designs which cannot be displayed to advantage in a case, and asks the public to call and examine them. They are guaranteed of the very latest pattern, since Mr. Smith keeps constantly in touch with all that is new.

One of the greatest compliments paid Mr. Smith in recent years was the fact that Hon. Lou J. Beauchamp, who has been here lecturing at the Chautauqua, had a new sitting that he might make another cut of himself for advertising purposes. He is an old friend of Mr. Smith, and knowing his ability as an artist, paid him the personal compliment to wait until he reached Gainesville for a photo.

"Some folks don't like to have their pictures taken when they are growing old," good naturedly remarked Mr. Beauchamp, "but Smith can make a fellow look better the older he gets, and I just decided to get me a new likeness and have a cut made from that, as I believe it would be a drawing card. Smith don't care how old a fellow is; he has the habit of making him look good anyhow."

Mr. Beauchamp says he believes if his wife sees the photograph made by Mr. Smith she will fall in love with him again, but Mr. Smith, with a mischievous twinkle, avows that he does not believe that possible.
